

## ExStik® 4-in-1 Water Quality Meter

Surface measurements of CHLORINE, pH, or ORP using a flat surface electrode

### Features:

- 4-in-1 Water Quality Meter measures Chlorine, pH, ORP plus Temperature with interchangeable flat surface electrodes (included)
- Flat surface electrodes work in liquids, semi-solids and solids
- Memory stores and recalls 15 readings and saves last calibrated value
- Data validation indicators show user the reading is stabilized
- Large 3-1/2 digit (2000 count) Digital display with bargraph (pH bargraph originates at neutral point 7.00pH)
- Automatic electronic self calibration for Chlorine and ORP; 1, 2 or 3 point buffer calibration for pH
- Data Hold, Auto shut-off and low battery indication
- Easy to replace electrode modules
- Waterproof design floats in wet environment
- Direct reading of Total Chlorine from low detection limit; Unaffected by sample color or turbidity
- Simultaneous display of ppm or pH and °C/°F Temperature
- Smart chip predicts pH electrode performance with "RENEW" indicator when replacement is needed
- "CAL" indicator alerts user to recalibrate pH electrode
- Automatic Temperature Compensation
- EX900 Kit Complete with ExStik® Chlorine meter, pH electrode, ORP electrode, protective sensor cap, 5 packs of 10 reagent tablets (50 tests), 5 plastic sample cups, weighted stand, pH 4, 7 & 10 buffer packs, four SR44 button batteries, carrying case, and neckstrap
- EX800 Kit is same as EX900 but excludes ORP electrode.

ExStik® Kit includes all the necessary accessories to measure Chlorine, pH, ORP, and Temperature.

Specifications	Chlorine	pH	ORP
pH:	—	0.00 to 14.00pH	—
ppm:	0.01 to 10.00ppm	—	—
mV:	—	—	-999 to 999mV
Temperature	23° to 194°F (-5 to 90°C)	23° to 194°F (-5 to 90°C)	—
Resolution:	0.01ppm	0.01pH	4mV
Accuracy:	±10% of rdg. + 1ppm	±0.01pH	±1mV
Power:	four SR44 button batteries		
Dimensions:	1.4 x 6.8 x 1.6" (35.6 x 172.7 x 40.6mm)		
Weight:	3.85oz (110g)		

### Ordering Information:

- EX900** ....ExStik® Kit 4-in-1 (pH, ORP, Chlorine, Temperature)  
**EX800** ....ExStik® Kit 3-in-1 (pH, Chlorine, Temperature)  
**PH103** ....Tripak buffers (6ea. of 4, 7, 10pH & 2 Rinsing solutions)  
**PH105** ....Spare pH electrode  
**CL203**.....Reagent tablets (10pk - 100 tests)  
**CL204**.....Reagent tablets (100pk - 1000 tests)  
**CL205**.....Spare Chlorine electrode  
**RE305** ....Spare ORP electrode  
**EX007** ....Spare sample solution cups with caps (24pk)
