

Professional or Standard Test Leads

Two types of Test leads to choose from to accommodate your applications

Double Injected Test Leads (Model TL805) Features:

Professional grade Test Leads with Non-slip comfort grip

- Double coated PVC lead wire with white inner layer to easily identify damaged leads
- Heavy duty chromium plated brass tips
- Shrouded, non-twist banana plugs for reduced socket wear
- "Superflex" molded strain reliefs for improved cable flexibility
- "D" shaped finger guards allow easy access to narrowly spaced test points
- Compatible with most multimeters (10 Amp capacity)
- CAT III-1000V rating; UL listed.
- Optional accessory — Insulated Alligator Clip (TL807)

Insulated Alligator Clips (Model TL807) Features:

- Alligator clip with insulated rubber boot, push onto your test leads
- Works with test leads TL805 and TL803
- CAT III-1000V rating

Standard Test Leads (Model TL803) Features:

Protective tip covers provide safety storage

- Standard replacement test leads
- Shrouded banana connectors, molded strain reliefs
- Compatible with most multimeters (10 Amp capacity)
- CAT III-1000V rating; UL listed
- Optional accessory — Insulated Alligator Clip (TL807)

Type K to banana Input Adaptor (Model TP879)

- TP879 Adaptor converts a Type K probe with a mini connector to standard 3/4" banana jacks
